In addition to the above requirements:

- Standard on-campus project/installation risk assessment processes must be followed prior to commencement of activity.

2.5 Assistance
- Technical assistance requirements for approved on-campus activity must be requested and booked in advance through youcanbook.me with the relevant staff member.
- Any prior planning or consultation that can be done virtually should occur off-campus via Zoom.

2.6 Audience
- During Phase 2 return to campus public exhibition audience attendance is NOT permitted.
- From Phase 3 onward limited and managed public audience attendance may be permitted in compliance with social distancing and capacity requirements.

3. PPE and SPECIAL REQUIREMENTS
Use appropriate PPE, as required; face covering is now a mandatory requirement

3.1 Respirators
- To maintain supply of P2 respirators to minimise exposure to material hazards, it is recommended that students source their own respirators if they are wearing them to avoid infection.
- Shared respirators are not to be used.
- Disposable respirators must be kept on your person if you wish to reuse them. Dispose of in a lined rubbish bin when you have finished use.

3.2 Gloves
- Disposable gloves may be worn where appropriate for specified processes. Be aware that gloves can carry the virus from place to place.
4. SOCIAL DISTANCING

- Refer to Social Distancing Maps
- Social distancing of 1.5m must be observed.

5. TASK SPECIFIC CLEANING

5.1 Personal Cleaning
- Follow proper hand washing procedures: wet your hands, put soap on your hands, rub the soap over all parts of your hands for at least 20 seconds, rinse your hands under running water, dry your hands thoroughly with disposable paper towel or hand dryer.
- Use the provided hand sanitiser on entry/exit of building.
- Take your rubbish and personal belongings with you when leaving a space.
- Only touch surfaces where necessary.
- Do not touch other people’s items without permission, unless necessary in an emergency.

5.2 Equipment Cleaning Measures
- All equipment must be sanitised wearing appropriate respirator and gloves.
- Equipment must be wiped down using an appropriate disinfectant cleaner, paying special attention to all areas of the equipment that would be handled by an operator.
- Equipment that is related to your scheduled class or activity may only be controlled by the academic/lecturer or one nominated person.
- It is recommended to wipe down equipment/machines after use. This is because the moisture on the equipment/machines needs to air dry for proper sanitisation to take place before it is able to be handled.
- Ensure electrical equipment/machines are turned off before cleaning. Cleaning is to remove surface contaminants and should not enter the equipment/machines.
