

Using the Bachelor of Arts Study Plan: Adding a Non-Standard Major

The [Study Plan](#) lays out your course in a tree diagram. There are components in your Study Plan for major(s), electives, breadths, as well as for minors where applicable. This guide will show you how to add a non standard major such as Psychology, Economics and Chinese Studies (entry point 1) on the Bachelor of Arts study plan. B-ARTS students must complete at least one major. You can access the study plan via my.unimelb.edu.au.

Tip: Use the [University Handbook](#) to identify the subjects, majors or minors that are available and follow the course requirements.

→ **Note:** If you are considering a non-standard major, it is recommended that you select it on your study plan in your first year.

STEP 1:

Select 'Choose' on the Breadth, Majors and Minors section on the study plan.

Expand All Collapse All

B-ARTS - Bachelor of Arts

Admitted 2020, Mid Year Intake, Parkville, On Campus Credit Points: 300

STEP 3:

Once you have identified the major, select 'Add to Study Planner'.

Breadth or non-standard Major/Minor	
Economics Major & Psychology Major Credit Points: 225	Add to Study Planner
More Details Requisite Information	
Psychology Major and Chinese Studies (Entry Point 1) Major Credit Points: 225	Add to Study Planner
More Details Requisite Information	
Psychology Major Credit Points: 150	Add to Study Planner
More Details Requisite Information	

Complete your selection by clicking 'Save'. This will return you to the Study Plan.

STEP 4:

Check that the non standard major has been listed on your study plan. If you are still unable to add the non standard major onto your study plan, please submit an [Enrolment Assistance form](#) to request for a course variation to add a major. If you see a capstone or compulsory subject appear on your study plan, you do not need to enrol into it now even though it appears as planned and the box is prompting you to enrol into it for the current year. As you will use this study plan for the entire duration of your course, you can choose the level 2 or 3 subjects in the later years instead. You can leave it as planned for now.
