### Study tips

- Set aside time to preview lecture slides and notes
- Be a selective reader – focus on relevant readings
- Explore your libraries and find study spaces that work for you
- Have measurable study targets (e.g. write 300 words in two hours)
- Use the library’s Re:cite guide to perfect your citing and referencing
- Seek feedback on your work

### Your tools for success

Study tips

• Set aside time to preview lecture slides and notes
• Be a selective reader – focus on relevant readings
• Explore your libraries and find study spaces that work for you
• Have measurable study targets (e.g. write 300 words in two hours)
• Use the library’s Re:cite guide to perfect your citing and referencing

Use this planner to create key milestones for your tasks each semester:

revision, exams, presentations, prac, key activities

- For writing tasks, add your due dates for assessments, then working backwards from ‘Submit’, shade the time you think you need to complete each phase of the task.
- Analyse task Brainstorm Research/Read Plan Write Edit Submit
